### EXPERIENCE

---

#### Prop House

April 2022 – Present

*Software Engineer*

*Remote*

- Tech stack included TypeScript, React, Redux, Bootstrap, RainbowKit, Wagmi, and Viem
- Engineered the round creator flow using our SDK, facilitating the onchain transition of Prop House
- Rebuilt the entire frontend based on Figma designs, successfully onboarding more than 70 communities
- Introduced proposal creation features, empowering builders to create over 7,000 props across 275 rounds
- Enhanced wallet connect functionality utilizing RainbowKit for improved user experience
- Integrated support for multiple languages, expanding the builder base by 20% and fostering inclusivity

#### Nouns DAO

April 2022 – April 2023

*Software Engineering Resident*

*Remote*

- Tech stack included TypeScript, Next.js, Tailwind, and RainbowKit
- Developed the official community site for the DAO, serving as documentation and its resource center
- Created a builder board, streamlining and improving the onboarding process for new builders
- Open-sourced it facilitating its adoption by five additional communities as their official community site

#### Cacheflow

Oct. 2021 – April 2022

*Founding Software Engineer*

*Remote*

- Tech stack included TypeScript, React, Recoil, and Tailwind
- Help develop the first version of our product and successfully onboarding the initial five customers
- Worked closely with the design team to determine product direction and ensure scalability
- Led the successful shift from Bootstrap to Tailwind, improving both design consistency and maintainability
- Participated in interviewing and facilitated the onboarding of new developers

#### KIK Consumer Products

Aug. 2018 – Oct. 2021

*Web Operations*

*Lawrenceville, GA*

- Managed the development of our water testing app with 1K+ users, contributing to \$4.8M in sales
- Spearheaded the redesign of retailer selling pages, leading to 25% increase in eCommerce sales
- Launched two LMS education platforms for B2B customers, engaging 3,500 users

#### Payroc

Jan. 2017 – Jan. 2018

*Lead Web Designer*

*Atlanta, GA*

- Led team of 4 to design and release ~15 websites a month
- Trained two junior designers to self-sufficiency increasing websites built monthly by 50%

### EDUCATION

---
